

Theophilus Oyeyemi

Front-end Developer (React)

I am a junior developer with a knack for creating interactive and intuitive interfaces for applications with high quality, scalable and maintainable code. I enjoy the thrill of working on something new and the satisfaction of delivering a job well done.

WORK EXPERIENCE

React Developer Intern I-Academy

03/2023 - Present

Lagos, Nigeria

Achievements/Tasks

- Worked closely with back-end developers to integrate front-end code with server-side logic.
- Implemented new features and user interfaces based on wireframes and design mockups.
- Led a front-end team on a project and successfully delivered on time.
- Gained experience in optimizing applications for maximum speed and scalability.
- Collaborated with a cross-functional team to develop and maintain responsive web applications using React.

SKILLS

Excellent Communicator

Proactive Thinker

Accountable

Efficient Time Manager

Active Collaborator

PERSONAL PROJECTS

KicksVille

- I designed a fully functional e-commerce pre-order website using React, Context API, and CSS.
- Implemented features such as product listing, search, filtering, and shopping cart functionality.
- Integrated an email service for order confirmation.
- Utilized session storage for data persistence and employed responsive design principles for a seamless user experience across devices.

EkoGuard

- I created a waste management app using HTML, CSS and vanilla Javascript
- It has features like registering and profiling users, scheduling collection and waste sorting guidelines
- Payment and invoicing is also integrated
